TouchDeck: Realese notes

Release 1 (v 0.1)
2013-09-20

Introduced features
- Access to a deck of cards.
- A graphical user interface.

Changes since the previous release
N/A.

Bug fixes since the previous release
N/A.

Known bugs and limitations
- On devices running Android 4.1+ notifications need to be enabled.
- On some phones the toast notification indicating a card draw may not appear when pressing the pile rapidly .
- The app only keeps state while active (locking and resuming will result in a restart of the application).
